Press allow in the pop up box.

Allow   Block

1. How it works?
- Select the frame
- The frame quickly and correctly displays on your face via webcam
- All happens in live time
- If at any point the frame becomes unattached you are able to reset
- You can seamlessly change the frame to see which one suits best

2. Why should you have it ?
- Get website visitiors to spend more time on your website
- Enhancing your eCommerce functionality
- Pre-selection of frames
- Reducing stock levels
- Domiciliary
- Inclusion in to the DO process
- Competitive edge
- Decrese in online returns
- Increase conversions

3. How to implement it?
- Will require a stand alone catalogue website or eCommerce bolt on
